PROFESSIONAL SUMMARY

Analyst with experience in healthcare regulatory research, compliance analysis, and operational assessment. Background in behavioral health settings and direct patient care informs a practical understanding of how policy translates at the point of service. Committed to public health and equitable access to care.

EDUCATION

University of Pittsburgh

December 2025

Bachelor of Science, Psychology

Relevant Coursework: Neuroscience, Organizational Psychology, Healthcare Strategic Management and Policy, Cognitive Psychology

RELEVANT EXPERIENCE

St. Clair Hospital

March 2026 - Present

Psychiatric Aide

Pittsburgh, PA

- Behavioral Health & Patient Access - direct exposure to how payer constraints, prior authorization, and formulary decisions affect medication access for inpatient psychiatric patients
- Observed care coordination workflows, staffing structures, and interdisciplinary communication in an acute inpatient psychiatric setting
- Care Pathway & Protocol Adherence - Developed firsthand understanding of how standardized care pathways translate (or break down) at the point of care and through EHR operational gaps, supporting structured clinical workflows including safety observation rounds and escalation protocols

Source 1 Healthcare Solutions

November 2022 – October 2024

Consultant / Client Lead

Pittsburgh, PA

- Revenue Cycle Analysis - Analyzed millions of rows of claims data using SQL to identify denial patterns, coding inefficiencies, and operational revenue leakage across client portfolios; recovered \$2.8 million in lost revenue and reduced denial rates by 20%
- Regulatory Policy Analysis & Market Assessment - Led U.S. market entry for international AI telehealth company targeting Medicare and ACA markets; scoped compliance gaps across HIPAA, CMS, ACA, and state DOI requirements; led end-to-end management across legal, clinical, engineering, and operational departments; built a risk-scored options framework; presented findings to C-suite leadership
- Policy & Program Assessment - Designed and executed operational assessments for clients, benchmarking organizational performance against regulatory and operational standards; delivered prioritized recommendation decks with 90-day and long-term improvement roadmaps to executive leadership
- Regulatory Advisory - Served as the primary subject-matter expert across CMS, Medicare/Medicaid, ACA, and state DOI requirements; resolved complex multi-jurisdictional compliance issues with zero government penalties
- Stakeholder Communication & Executive Briefings - Traveled on-site to present operational findings, benchmarking results, and initiative updates to C-suite and board-level leadership across a portfolio of 10+ healthcare clients
